### EXPLANATIONS and OTHER INFORMATION

- In case there are more passengers than the capacity at the specified shuttle time, an additional vehicle (2nd vehicle, 3rd vehicle ...) will be added within maximum 10 minutes by the service provider firm with the control and approval of the Transportation Services Department official and it will be ensured that there are no passengers at the stops.
- Since the Alibeyköy (METRO) student shuttle service runs continuously from 07:45 in the mornings, a separate Alibeyköy (METRO) shuttle service is not planned for staff in the mornings.
